DISABILITY STUDIES SPECIALIZATION (12 hours):

This specialization benefits students who are interested in pursuing a career working with students of varying ages and with a variety of disabling conditions in a range of settings.

Description:
This specialization includes courses specific to the knowledge, practices and services for people with disabilities. In this specialization, students will learn the science and studies behind motor development and motor learning and then implement them in programs that are created for people with disabilities.

Courses:
KIN 321M: Motor Development and Performance
KIN 327T 3– Practicum in Disabilities
KIN 338: Motor Development & Assessment (Sp) OR
   KIN 334: Children’s Exercise & Physical Activity (Sp)
KIN 360: Programming for People with Disabilities
